Governance Strengthening Exercises: Roles and Responsibilities

(Please ensure at least one exercise from the list below is included in the school's Ready to Open Progress Report in May).

(Exercise #1) Establish and adopt as policy *Performance Expectations for Individual Board Members*, including clear roles and responsibilities which should be signed by each incoming board member. Use this document to develop a board self-evaluation tool (each individual board member, full board of directors, or both). **[This exercise requires 2 products.]**

(Exercise #2) Develop a board member binder (hard copy or electronic version) that contains the important documents that each board member should know to warrant effective governance practices. In addition, develop an orientation process that follows when new members are elected or appointed. This orientation process should be adopted by the board through vote and kept in the board member binder. **[This exercise requires 2 products.]**

(Exercise #3) To support board members' understanding of Governance vs. Management, develop a document that clearly defines the separate roles of a lead administrator and board members when it comes to the learning organization. Articulate and develop a document depicting the job description and role of the lead administrator and board member. Use the criteria to develop and adopt a clear tool for evaluating the school's lead administrator and each board member's effectiveness. **[This exercise requires 5 products.]**

(Exercise #4) Diversity is the hallmark of an effective board. Evaluate the board you currently sit on and develop a plan to recruit board members that have the area of expertise/professional skills lacking by the current board of directors. You may use the [Charter School Board Profile Worksheet](#) (pages 69-70) provided or feel free to create your own based on the particular charter school's mission and needs. Take the [Board Governance Quiz](#) created by Reach the High Bar to find out more about your board. **[This exercise requires 2 products.]**
